INFORMATION ON THE BOMBING OF STRALSUND  
RECEIVED BY "GEEK".

From: STOCKHOLM

To: MOSCOW

No.: 3536

25 October 1944

To the 8th Department.

*From the 2nd Division 71* [2144]  
[4 groups unrecovered] from [4 groups unrecovered] to  
STOCKHOLM a German

[63 groups unrecoverable]

high landing speed (600 - 650 kilometres per hour) requires large  
landing grounds and leads to [C. heavy] losses in air crew  
personnel and [B. matériel] when landing. In view of these  
defects rocket [engined] planes [C. are used] on a small scale and  
it is doubtful whether their use is likely to spread. Further  
[44 1/2 miles (2 3/4)] was lowered into the water. [18 groups unrecovered]

[33 groups unrecoverable]

to ["] GEEK [GEEK]"<sup>67</sup> that on 7 October 1944 the power station in  
STRALSUND (North Germany) was destroyed by a direct hit with a  
bomb. This was the reason for the cessation of telephone  
communication between BERLIN and STOCKHOLM, as the current from  
this station was transformed for the land line. Telephone  
communications have been restored with the aid of batteries and
